

PRACTICAL HOLIDAY GIFTS

FURNITURE-AS CHRISTMAS GIFTS

THERE is rapidly developing a tendency among the American people to purchase substantial, practical gifts at the Christmas season instead of meaningless trifles. The strongest evidence of this fact lies in the increasing Christmas business of the Furniture Stores. This also proves the wisdom and shrewdness of our people, for when seeking practical as well as pleasing gifts, what better could be chosen than Furniture.

Furniture largely makes the atmosphere of the home and home is closest to the heart of every true man or woman. Furniture makes the home either repellent or attractive. A glance at the gift suggestions on this and the next page will demonstrate at once our contention that furniture makes ideal Christmas gifts. Our store is literally filled this year with beautiful and inexpensive pieces admirably designed for gift, and the prices we are asking will be forgotten years before the goods have begun to show wear. We purchased them with Christmas in mind. We shall extend every courtesy in our power to all callers whether they purchase or not. Make our store your headquarters when shopping.

Only Reliable Furniture at Our Store

WE sell reliable goods at reasonable prices and our steady increase of patronage exemplifies the wisdom of this policy. Cheapness has no place in furniture. Furniture is made primarily for the home and the home is set up to endure. Furniture should be purchased for its solid enduring qualities as well as for artistic merit. We urge upon our customers the best goods because they are the cheapest in the end. Thus our store has built up a reputation for reliability that lends confidence to every buyer that enters our doors. Buy here with the assurance that every dollar you spend will purchase a dollar's worth. Credit for the asking. Pay as you get paid—a little each week or month will do.
